

**Meeting Time:**

Monday, 6th October 2021

**Members Attended:**

Chieh-Yu Chao, Hester Lim, Kennedy Guok, Rui Wang

**Members Absent:**

Li Sean Wong

**Agenda:**

- Checked our submission file using check.py
- Ken : Moved algo to modelling folder and changed to use the helper functions..  
other algorithms
- Chieh : Moved also to other algorithms folder, split the training, validation set etc
- Rain : still trying to do the bonus task, just read the data and haven't started with  
the prediction. Can finish the bonus task on Friday.
- Hester : implemented check.py. Found some bugs for the team to discuss.
- Ask Calvin if we need to include a bonus task into the presentation? yes
- Ask Calvin about the evaluation : submit all three and a half years of action
  - Tutors will sample a period from that to do the evaluation
- The team needs to evaluate the algorithm performance and how it is compared  
to the baseline model. The team can also show the specific rationale with tables  
with about 3- 4 rows with baseline and highlight the one with the best  
performance

**Next meeting Time:**

Friday, 8th October 2021
