Meeting Time:

Wednesday, 15th September 2021

Members Attended:

Chieh-Yu Chao, Hester Lim, Kennedy Guok, Li Sean Wong, Rui Wang

Agenda:

- Finished the third deliverable

- Brainstormed on algorithm 2&3 (from the given task sheet)

- Discussed possible algorithms (group prices by half-hour period, find the median prices for each period and find the minimum price periods to charge the battery)

- Asked Calvin about the negative values for price and power generation in the dataset -- there is no outliers for the mandatory task (price can be negative)

- Created a plan for the mid-semester break (meetings on Monday 3pm and Friday 2pm during mid-semester break, finish implementing our own algorithms before Friday 24th September)

Next meeting Time:

Friday, 17th September 2021
